CAREER OBJECTIVE

Graduating Information Technology student with experience in developing web and mobile applications and a background in networking and system technologies. Seeking an entry-level opportunity to apply my skills, contribute to projects, and grow as an IT professional.

PROJECTS

FURPET: Pet Services Finder System (Capstone Project)
Technologies: Laravel, JavaScript, Bootstrap, MySQL
Built a web platform for locating pet services with user authentication, listings, and database management.

IRIS: Interactive Recruitment Information System (Project Replica)
Technologies: Laravel, MySQL
Developed a recruitment system for managing job postings and applicants with full backend functionality.

UNIHUB Mobile Merch App (UX/UI Design Case Study)
Technologies: Figma
Designed a mobile e-commerce prototype with wireframes, UI layouts, and interactive prototypes.

Tic-Tac-Toe Mobile Game (Mobile Development Project)
Technologies: React Native, Expo Go
Developed a mobile Tic-Tac-Toe game featuring player vs. player and AI modes with multiple difficulty levels, score tracking, and interactive UI.

SKILLS

Programming: HTML, CSS, Java, JavaScript, PHP, Next.js
Frameworks/Tools: React Native, Laravel, GitHub, VS Code
Databases: MySQL, MariaDB, MongoDB
Design: Canva, Figma
Others: Teamwork, Adaptability, Time Management

CERTIFICATIONS AND TRAININGS
